

TIA Alliance Members & Services

TROUT UNLIMITED

Mission: To conserve, protect and restore North America's coldwater fisheries and their watersheds.

Role in TIA: Collaborate on development of outreach materials and training structure. Provide access to a wide network of Trout in the Classroom teachers and fisheries professionals.

What TU Can Provide You: As an official SOS Club, you will have access to the TU network of volunteers and professionals. TU has 387 chapters across the US with over 300,000 members and supporters. Local TU members can assist with field trips, advise on conservation projects, provide lectures, and help students explore a wide range of career paths. TU members work in industries ranging from eco-tourism, fisheries biology, natural resources, academia, policy, and more. Although focused on coldwater fisheries, TU members have experience with a broad range of habitats and conservation issues.

IZAAK WALTON LEAGUE OF AMERICA

Mission: To conserve, restore, and promote the sustainable use and enjoyment of our natural resources, including soil, air, woods, waters, and wildlife.

Role in TIA: Provide training and materials for Save Our Streams monitoring protocol, and collaborate on development of outreach materials and training structure.

What IWLA Can Provide You: Save Our Streams is a program of IWLA. As the leader of an official SOS Club, you will be a certified SOS monitor and able to collect and submit data to the national water quality database. IWLA also provides water quality introductory materials and presentations, identification equipment, and monitoring

equipment. Experienced SOS monitors in your area may assist with site selection, monitoring events, and local conservation initiatives.

AMERICAN FISHERIES SOCIETY

Mission: To improve the conservation and sustainability of fishery resources and aquatic ecosystems by advancing fisheries and aquatic science and promoting the development of fisheries professionals.

Role in TIA: Provide access to a wide network of AFS professionals and advisors for SOS Clubs and training events, and a fast-track for student memberships in AFS.

What AFS Can Provide You: As an official SOS Club, you will have access to the AFS network of volunteers and professionals. AFS has 50 chapters across North America with over 8,000 members. Local AFS members can assist with field trips, advise on conservation projects, guide research questions, provide lectures, and help students explore a wide range of career paths. AFS members work in industries ranging from aquaculture, fisheries biology, natural resources, academia, research, policy, and more.
