CHEMICAL MONITORING

- Monitor for common pollution issues
- NO TRAINING is required!
- Cost-effective
- Easy to learn!
- Chemical testing can be done by lowering a bucket with a rope over a bridge into the stream
- Pick and choose the tests that are important to you - just one or all 7!
- Your data can go into the Clean Water Hub and shared with your community and the public today!

INFORMATION ABOUT CHOOSING TESTS AND PURCHASING MONITORING EQUIPMENT CAN BE FOUND AT
